Evidence of Performance Energy efficiency and thermal insulation

Test report 432 29876/2e*

ROSENHEIM

* Translation of Test Report 432 29876/2 dated 10 May 2005

Client **ALUMIL - MILONAS ALUMINIUM INDUSTRY S. A.** Industrial Area

61100 KILKIS GREECE

Product	Fixed systems: Frame / transom Movable systems: sash-frame-transom combination
Designation	M 11500 ALUTHERM SUPER PLUS
Dimensions of cross section	Depth of frame / transom 76.5 mm Depth of sash 84 mm
Projected width:	Variable projected width
Material Surface	Thermal break aluminium profile, coated
Type and material	Continuous polythermide bars, Polyamide 6.6 with 25 % glass fibre slightly oxidised surfaces, e.g. cavities following surface
of thermal break	-/-

Thermal transmittance

 $U_{\rm f}$ = 1.9 – 2.1 W/(m² · K) *

The specified range of values refers to the profile combinations * listed in tables 4 and 5 of this report. The $U_{\rm f}$ -values for additional profile combinations of the system are determined using the linear regression in accordance with table 6.

Sitz: 83026 Rosenheim AG Traunstein, HRB 14763 Sparkasse Rosenheim Kto. 3822 BLZ 711 500 00

Basis

ift Guideline WA-01/1 (February 2002) "Verfahren zur Ermittlung von Uf-Werten für thermisch getrennte Metallprofile aus Fenstersystemen (Determination of the $U_{\rm f}$ -values of thermal break metal profiles used in window systems) EN ISO 10077-2 : 2003-10 Calculation of thermal transmittance $U_{\rm f}$ Numerical method for frames.

Equivalent to the national versions DIN EN ISO as well as DIN FN

Test report 432 29876/2 dated 10 May 2005

Representation

see Annex 1

Instructions for use

This test report serves to demonstrate the thermal transmittance $U_{\rm f}$ of the tested profile system.

Validitv

The data and results given refer solely to the described and tested specimen.

Testing the thermal transmittance does not allow any statement to be made on further characteristics of the present structure regarding performance and quality.

Notes on publication

The ift Guidance Sheet "Conditions and Guidance for the Use of ift Test Documents" applies.

The cover sheet can be used as abstract

Contents

The report comprises a total of 12 page.

- Object 1
- 2 Procedure 3
- Detailed results Annex 1 (4 pages)
